

Предлог за избор у звање доцента/ванредног професора
(члан 65. Закона о високом образовању)

I ПОДАЦИ О КАНДИДАТУ ПРЕДЛОЖЕНОМ ЗА ИЗБОР У ЗВАЊЕ НАСТАВНИКА

- | | |
|---|-------------------------------|
| 1. Име, средње име и презиме кандидата | ДР ДРАГАН (Момчило) МАШУЛОВИЋ |
| 2. Предложено звање | ДОЦЕНТ |
| 3. Ужа научна област за коју се наставник бира | РАДИОЛОГИЈА |
| 4. Радни однос са пуним или непуним радним временом | пуно радно време |
| 5. До овог избора кандидат је био звању | ДОЦЕНТА |
| у које је први пут изабран | 24.11.2005. године |
| за ужу научну област / наставни предмет | РАДИОЛОГИЈА |

II ОСНОВНИ ПОДАЦИ О ТОКУ ПОСТУПКА ИЗБОРА У ЗВАЊЕ

1. Датум истека изборног периода за који је кандидат изабран у звање : **24.11.2010.**
2. Датум и место објављивања конкурса : **22.06.2010., интернет страница Националне службе за запошљавање**
3. Звање за које је расписан конкурс: **доцент**

III ПОДАЦИ О КОМИСИЈИ ЗА ПРИПРЕМУ РЕФЕРАТА И О РЕФЕРАТУ

1. Назив органа и датум именовања комисије: **Изборно веће Медицинског факултета: 07.07.2010.**
2. Састав Комисије за припрему реферата:

Име и презиме члана	Звање	Ужа научна област	Организација у којој је запослен
1) Др Ђ. Шарановић	ван.проф.	Радиологија	Мед.фак. у Београду
2) Др Д. Сагић	доцент	Радиологија	Мед.фак. у Београду
3) Др Љ. Радошевић-Јелић	ред.проф.	Радиологија	у пензији

3. Број пријављених кандидата на конкурс : **2**
4. Да ли је било издвојених мишљења чланова комисије: **не**
5. Датум састављања реферата на увид јавности: **04.10.2010.**
6. Начин (место) објављивања реферата: **web sajt : www.med.bg.ac.rs и огласна табла Факултета**
7. Приговори: **нема приговора**

IV ДАТУМ УТРЂИВАЊА ПРЕДЛОГА ОД СТРАНЕ ИЗБОРНОГ ВЕЋА ФАКУЛТЕТА: **22.12.2010.**

Потврђујем да је поступак утрђивања предлога за избор кандидата **ДР ДРАГАН МАШУЛОВИЋА** у звање **ДОЦЕНТА** вођен у свему у складу са одредбама Закона, Статута Универзитета, Статута факултета и Правилника о начину и поступку стицања звања и заснивање радног односа наставника Универзитета у Београду.

УНИВЕРЗИТЕТ У БЕОГРАДУ
МЕДИЦИНСКИ ФАКУЛТЕТ
БРОЈ: 2149/2
ДАТУМ: 22.12.2010.
БЕОГРАД

На основу чл. 65. став 2. Закона о високом образовању (Сл. гласник РС бр. 76/05), чл. 158. и 159. Статута Медицинског факултета у Београду, Изборно веће Медицинског факултета у Београду је на седници одржаној дана **22.12.2010.** године, донело је

ОДЛУКУ

Утврђује се предлог за избор **др ДРАГАНА МАШУЛОВИЋА** у звање **ДОЦЕНТА** за ужу научну област **РАДИОЛОГИЈА**.

Образложење

Одлуком Декана расписан је конкурс на интернет страници Националне службе за запошљавање дана 22.06.2010. године за избор два наставника у звање доцента за ужу научну област Радиологија.

На конкурс су се пријавила два кандидата: др Ружица Максимовић и др Драган Машуловић, доценти на катедри уже научне области Радиологија.

Комисија за припрему реферата о пријављеним кандидатима изабрана одлуком Изборног већа од 07.07.2010. године у саставу:

- Проф. др Ђорђије Шарановић, ванредни професор Медицинског факултета у Београду
- Доц. др Драган Сагић, доцент Медицинског факултета у Београду
- Проф. др Љиљана Радошевић-Јелић, редовни професор Медицинског факултета у пензији

предложила је Изборном већу Медицинског факултета да утврди предлог за избор др Ружице Максимовић и др Драгана Машуловића у звање доцента за ужу научну област Радиологија.

Реферат комисије стављен је на увид јавности дана 04.10.2010. године преко интернет странице Факултета: www.med.bg.ac.rs.

На основу предлога Комисије за припрему реферата, Изборно веће је донело одлуку као у изреци.

Одлуку доставити:

- Универзитету у Београду
- Кадровској служби
- Изборној архиви

ДЕКАН
МЕДИЦИНСКОГ ФАКУЛТЕТА

Проф. др Владимир Бумбаширевић

SAŽETAK REFERATA KOMISIJE O PRIJAVLJENIM KANDIDATIMA ZA IZBOR U ZVANJE

I – O KONKURSU

Naziv fakulteta: Medicinski fakultet Univerziteta u Beogradu
Uža naučna oblast: Radiologija
Broj kandidata koji se biraju: 2 (dva)
Broj prijavljenih kandidata: 2 (dva)
Imena prijavljenih kandidata:

1. Dr Ružica Maksimović
2. Dr Dragan Mašulović

II O KANDIDATIMA

1. Ružica Maksimović

1) OSNOVNI BIOGRAFSKI PODACI

– Ime, srednje ime i prezime: Ružica (Momir) Maksimović
– Datum i mesto rođenja: 16.08.1962, Pančevo
– Ustanova gde je zaposlen: Medicinski fakultet Univerziteta u Beogradu
– Zvanje/radno mesto: Docent, lekar specijalista
– Naučna oblast: Radiologija sa nuklearnom medicinom

2) STRUČNA BIOGRAFIJA, DIPLOME I ZVANJA

Osnovne studije:

– Naziv ustanove: Medicinski fakultet Univerziteta u Beogradu
– Mesto i godina završetka: Beograd, 1986

Magisterijum:

– Naziv ustanove: Medicinski fakultet Univerziteta u Beogradu
– Mesto i godina završetka: Beograd, 1992
– Uža naučna oblast: Kardiologija

Doktorat:

– Naziv ustanove: Medicinski fakultet Univerziteta u Beogradu
– Mesto i godina odbrane: Beograd, 1998
– Naslov disertacije: *Procena radioloških parametara u bolesnika sa akutnom traumom glave*
– Uža naučna oblast: Radiologija

Dosadašnji izbori u nastavna i naučna zvanja:

Asistent: 01.06.1996 – 10.10.2005. godine
Docent: 08.12.2005. godine

3). OBJAVLJENI RADOVI

Ime i prezime: Dr Ružica Maksimović	Zvanje u koje se bira: Docent		Uža naučna, odnosno umetnička oblast za koju se bira: Radiologija sa nuklearnom medicinom

Ostale stručne publikacije (projekti, softver, drugo)				

Časopisi indeksirani u Current Contents-u (CC) ili Science Citation Index-u (SCI) u kojima su radovi objavljeni

Rheumatology (Oxford), Circulation, Herz, International Journal of Medical Informatics, Clin Cardiol, Clinical Neurology and Neurosurgery, Transplantation Proceedings, Eur Heart J, Postgrad Med J

4) OCENA O REZULTATIMA NAUČNOG I ISTRAŽIVAČKOG RADA

Dr Ružica Maksimović ima bibliografiju od 309 rada, od kojih 17 u časopisima koji su indeksirani u Current Contents-u ili Science Citation Index-u, 19 radova u časopisima koji su uključeni u bazu podataka MEDLINE i 26 in extenso u časopisima koji nisu citirani u navedenim bazama podataka. Pored toga, koeditor je knjige o bolestima perikarda koja se na savremeni način bavi dijagnostikom i lečenjem bolesti perikarda a autor je ili koautor u pet poglavlja u udžbenicima, tri poglavlja u knjigama i u 16 poglavlja u monografijama. Citiranost (Scopus) je 85.

Publikovani radovi su dominantno iz oblasti primene magnetne rezonance u kardiovaskularnim bolestim, kao i primene magnetne rezonance u diferencijalnoj dijagnozi fokalnih lezija jetre i za procenu patologije bilijarnog stabla.

Dr Ružica Maksimović je do sada bila saradnik na ukupno 6 projekata, Ministarstva za nauku Republike Srbije, kao i Evropske komisije u okviru Tempus programa.

5) OCENA REZULTATA U OBEZBEĐIVANJU NAUČNO-NASTAVNOG PODMLATKA

Dr Ružica Maksimović je mentor za izradu četiri doktorska rada, jednog specijalističkog akademskog rada, bila je član komisije za odbranu dve magistarske teze i mentor četiri studentska rada.

6) OCENA O REZULTATIMA PEDAGOŠKOG RADA

Od izbora za asistenta za užu naučnu oblast Radiologija, 1996. godine Dr Maksimović učestvuje u izvođenju praktične osnovne nastave, sa fondom od 10 časova nedeljno, a od reizbora u zvanje asistenta učestvuje i u izvođenju dvosemestrane nastave za lekare na specijalizacije iz radiologije. Radu sa studentima pristupa odgovorno i profesionalno. U okviru osnovne nastave drži pedavanja, vežbe i kolokvijume, a takodje je rukovodilac nastave na engleskom jeziku gde takodje drži predavanja i vežbe. Takodje drži predavanja u okviru zdravstvene specijalizacije iz Radiologije, zdravstvene specijalizacije is Fizikalne medicine i rehabilitacije, kao i zdravstvene uže specijalizacija iz kardiologije. U okviru akademske specijalizacije iz Radiologije drži predavanja i vežbe.

7) OCENA O ANGAŽOVANJU U RAZVOJU NASTAVE I DRUGIH DELATNOSTI VISOKOŠKOLSKJE USTANOVE

Dr Maksimović je aktivan i konstruktivan član Katedre za radiologiju. Savesna je u izvođenju redovne nastave i u svakodnevnom radu sa studentima. Trenutno je angažovana na dva projekta i ima značajno iskustvo u kliničkim istraživanjima i timskom radu kao i povezivanju stručnjaka istih interesovanja iz različitih institucija. Dr Maksimović ima punu inicijativu u primeni novih metoda analize dobijenih podataka, planiranju, koordinaciji i izvođenju naučnih projekata. Tokom svoje karijere specijaliste radiologije, dala je značajan doprinos unapređenju kardiovaskularne radiologije, naročito u oblasti primene magnetne rezonance. Dr Ružica Maksimović se u toku svog petnaestogodišnjeg rada na Medicinskom fakultetu u Beogradu, formirala u zrelog pedagoga koji uspešno vodi nastavu za redovne i posle diplomске studije i mentor je više studentskih radova, radova akademske specijalizacije kao i doktorskih teza.

2. Dr Dragan Mašulović

1) OSNOVNI BIOGRAFSKI PODACI

- Ime, srednje ime i prezime: Dragan (Momčilo) Mašulović
- Datum i mesto rođenja: 14.03.1961., Zemun
- Ustanova gde je zaposlen: Medicinski fakultet Univerziteta u Beogradu; Centar za radiologiju i MR KCS
- Zvanje/radno mesto: Docent, lekar specijalista
- Naučna oblast: Radiologija

2) STRUČNA BIOGRAFIJA, DIPLOME I ZVANJA

Osnovne studije:

- Naziv ustanove: Medicinski fakultet Univerziteta u Beogradu
- Mesto i godina završetka: Beograd, 1984

Magisterijum:

- Naziv ustanove: Medicinski fakultet Univerziteta u Beogradu
- Mesto i godina završetka: Beograd, 1995.g
- Uža naučna oblast: Radiologija/Interventna radiologija

Doktorat:

- Naziv ustanove: Medicinski fakultet Univerziteta u Beogradu
- Mesto i godina odbrane: Beograd, 2000.g
- Naslov disertacije: *Metalni stentovi u lečenju striktura urinarnog trakta*
- Uža naučna oblast: Radiologija/Interventna radiologija

Dosadašnji izbori u nastavna i naučna zvanja:

Asistent 28.05.1996; Asistent: jul mesec 2000; Asistent: jul mesec 2004;
Docent: 25.11.2005. godine

3). OBJAVLJENI RADOVI

Časopisi indeksirani u Current Contents-u (CC) ili Science Citation Index-u (SCI) u kojima su radovi objavljeni

Surgery today, Hernia, Dis Esophagus, J Gastroenterology Hepatology, J Urology, Eur J Radiology
J Gastroent Hepatology

4) OCENA O REZULTATIMA NAUČNOG I ISTRAŽIVAČKOG RADA

Dr Dragan Mašulović do sada je objavio 269 radova – 64 u celini, 191 u obliku izvoda, 12 poglavlja i 2 knjige. Kandidat ima 7 radova objavljenih u časopisima indeksiranim u CC ili SCI (šest nakon izbora u zvanje docenta), 1 rad u kategoriji Letter, short note u časopisu indeksiranom u CC ili SCI (kao drugi autor), 1 rad u časopisima indeksiranim u SCI Expanded (kao drugi autor i nakon izbora u zvanje docenta), 25 u časopisima indeksiranim u MEDLINE-u (4 kao prvi autor-tri nakon izbora u zvanje docenta, 8 kao 2-3 - svi nakon izbora u zvanje docenta, 13 kao saradnik-11 nakon izbora u zvanje docenta), 23 rada u celini u časopisu koji nije indeksiran u navedenim bazama podataka (5 kao prvi autor, 8 kao 2-3 autor, a u ostalim kao saradnik), 7 radova u celini u zborniku nacionalnog skup, 136 u vidu izvoda u zborniku međunarodnog skupa i 55 u vidu izvoda u zborniku nacionalnog skupa. Ukupno, dr Dragan Mašulović je jedini autor u 12 radova, prvi autor u 66, 2-3 autor u 88 i saradnik u 89 radova.

Analizom objavljenih radova zapaža se da se kandidat bavi primenom interventno radioloških procedura, vaskularnih i nevaskularnih u oblasti urologije i radiologije hepatobilijarnog sistema, a u novije vreme i primenom novih digitalnih imidžinga u dijagnostici i terapiji. Prikazane su kako generacijski starije tako i najnovije interventno radiološke procedure od kojih su neke po prvi put predstavljene i primenjene na ovim prostorima.

5) OCENA REZULTATA U OBEZBEĐIVANJU NAUČNO-NASTAVNOG PODMLATKA

Dr Dragan Mašulović je bio mentor u izradi 1 doktorske teze. Bio je član komisije za ocenu i odbranu 1 magistarske teze, kao i član komisija za izbore u zvanja (2 puta).

6) OCENA O REZULTATIMA PEDAGOŠKOG RADA

U okviru osnovne nastave iz Radiologije Dr Dragan Mašulović učestvuje u predavanjima, seminarima, vežbama, pripremi i realizaciji kolokvijuma I, ispitivač je kolokvijuma II kao i završnog ispita združenog premeta Radiologija sa nuklearnom medicinom. Učestvuje u pripremi i realizaciji kvalifikacionog testa za studente IV i V godine i apsolvente i obavlja usmeni ispit. U okviru izborne nastave odgovorni je nastavnik za oblast CT dijagnostika u Radiologiji. Učestvovao je i izvođenju nastave na engleskom jeziku iz Radiologije.

U okviru posrediplomske nastave učestvuje u predavanjima na specijalizaciji iz Radiologije, ispituje dva kolokvijuma i član je ispitne komisije za specijalističke ispite. Drži teorijsku nastavu i u okviru specijalizacija iz Urologije i Gastroenterologije i jedan je od rukovodilaca izbornog predmeta/ Interventna radiologija/ na akademskoj specijalizaciji iz Radiologije.

Dr Dragan Mašulović je autor/koautor dvanaest poglavlja i jedan od autora dve knjige. Bio je mentor u 4 studentska rada koji su prezentovani na kongresima, recenzent i član predsedništva

7) OCENA O ANGAŽOVANJU U RAZVOJU NASTAVE I DRUGIH DELATNOSTI VISOKOŠKOLSKE USTANOVE

Dr Dragan Mašulović je uključen u sve oblike stručnih aktivnosti i kao specijalista radiolog daje svoj puni doprinos u rešavanju problema u različitim segmentima Radiologije, a naročito u oblasti interventne radiologije hepatobilijarnog i urinarnog trakta. Značajan stručni doprinos kandidata ogleda se u uvođenju i uspostavljanju većeg broja interventnih procedura, kako vaskularnih tako i nevaskularnih, tako da su njegova iskustva u primeni ovih procedura ogromna i dragocena a serije ravne onim u velikim svetskim centrima, što ga nesumnjivo čini autoritetom u ovoj oblasti Radiologije. U novije vreme sa velikim uspehom bavi se i primenom novih digitalnih imidžinga u dijagnostici i terapiji.

Dr Dragan Mašulović je do sada pokazao veliku aktivnost u svim oblicima rada katedre za Radiologiju. Kandidat je u dva mandata bio sekretar katedre za osnovnu nastavu iz Radiologije a sada je zamenik šefa katedre za osnovnu nastavu iz Radiologije.

III ZAKLJUČNO MIŠLJENJE I PREDLOG KOMISIJE

Komisija u sastavu: Prof.dr Đorđije Šaranović, Doc. dr Dragan Sagić i Prof. dr Ljiljana Radošević-Jelić, na osnovu uvida u priloženu dokumentaciju zaključuje da dr Ružica Maksimović i dr Dragan Mašulović ispunjavaju sve uslove predviđene Zakonom o visokom obrazovanju i Statutom Medicinskog fakulteta za izbor u zvanje docenta za užu naučnu oblast radiologija na Medicinskom fakultetu Univerziteta u Beogradu.

Na osnovu iscrpne analize stručnog, nastavno-pedagoškog i naučno-istraživačkog rada, članovi Komisije sa velikim zadovoljstvom predlažu Izbornom veću Medicinskog fakulteta da prihvati predlog i mišljenje da se dr Ružica Maksimović i dr Dragan Mašulović izaberu u zvanje docenta za užu naučnu oblast Radiologija na Medicinskom fakultetu u Beogradu.

U Beogradu, 16.08.2010.

KOMISIJA:

1. Prof. dr Đorđije Šaranović, Vanredni Profesor Medicinskog fakulteta u Beogradu

2. Doc. dr Dragan Sagić, Docent Medicinskog fakulteta u Beogradu

2. **Doc. dr Dragan Sagić, docent Medicinskog fakulteta u Beogradu**
3. **Prof. dr Ljiljana Jelić Radošević, redovni profesor u penziji**

određena na sednici Izbornog veća Medicinskog fakulteta u Beogradu održanoj 07.07.2010. godine analizirala je prijave na konkurs objavljen na internet stranici Nacionalne službe za zapošljavanje (www.nsz.gov.rs) 22.06.2010. za izbor DVA (2) nastavnika u zvanje **DOCENTA**, za užu naučnu oblast **RADIOLOGIJA**, i podnosi sledeći

I Z V E Š T A J

Na raspisani konkurs su se prijavila dva kandidata:

1. Dr Ružica Maksimović, docent na Katedri radiologija, Medicinskog fakulteta u Beogradu, i
2. Dr Dragan Mašulović, docent na Katedri radiologija, Medicinskog fakulteta u Beogradu

1. Dr Ružica Maksimović

A. OSNOVNI BIOGRAFSKI PODACI

Dr Ružica (Miomir) Maksimović je rođena 16.08.1962. godine u Pančevu. Zaposlena je na Medicinskom fakultetu u Beogradu n.b. Centru za radiologiju i magnetnu rezonancu KCS u zvanju docent na Katedri radiologija i lekar specijalista radiolog.

B. STRUČNA BIOGRAFIJA, DIPLOME I ZVANJA

Osnovne studije

Dr Ružica Maksimović je završila Medicinski fakultet u Beogradu 1987. godine sa prosečnom ocenom 9.36. Stručni ispit za doktora medicine je položila 21.12.1988. godine.

Magisterijum

Magistarsku tezu "Rezultati endomiokardne biopsije u pacijenata sa primarnim bolestima srčanog mišića" odbranila je novembra 1993. godine pred komisijom u sastavu Prof. dr Petar M. Seferović, mentor, Prof. dr Miodrag Ostojić i Prof. dr Jelena Marinković na Medicinskom fakultetu, Univerziteta u Beogradu.

Doktorat

Doktorsku disertaciju pod naslovom "Procena radioloških parametara u akutnoj traumi glave" odbranila je decembra 1998. godine na Medicinskom fakultetu u Beogradu. Tezu je odobrila komisija čiji su članovi bili Prof. dr Branislav Goldner, mentor, Prof. dr Miloš Janićijević i Prof. dr. Srdjan Stanković.

Specijalizacija

Specijalistički ispit iz radiologije je položila marta 1995. godine sa odličnim uspehom i od tada radi kao radiolog na Institutu za radiologiju, a od marta 2004. godine u Centru za magnetnu rezonancu, Kliničkog centra Srbije.

Dosadašnji izbori u naučna i nastavna zvanja

Posle položenog državnog ispita 1988. godine počela je da radi na Medicinskom fakultetu kao asistent pripravnik iz predmeta Statistika i informatika. U zvanje asistenta za predmet radiologija izabrana je 01.06.1996. godine, reizabrana 2000. godine i ponovo reizabrana 2004. godine. U zvanje docenta je unapređena 08.12.2005. godine.

C. NAUČNI I STRUČNI RAD

a) Spisak objavljenih radova

RADOVI U ČASOPISIMA KOJI SU INDEKSIRANI U CURRENT CONTENTS-U (CC) ILI SCIENCE CITATION INDEX (SCI)

b) Organizovanje naučnih sastanaka i simpozijuma

Dr Maksimović je član Programskog komiteta Balkanskog udruženja radiologija od 2008-2012. godine. Takođe je bila organizator GALEN kursa u Beogradu 2009. godine koji je bio održan pod okriljem Evropskog udruženja radiologa i Evropske škole radiologije (European School of Radiology). Bila je jedan od naučnih direktora European Conference on Myocardial and Pericardial Disease, održanom 2009. godine u Beogradu, član Naučnog komiteta European Conference on the Management Strategies in Heart Failure, održanom 2009. godine u Beogradu, član Naučnog komiteta International Conference on Heart Failure and Diabetes, održanom 2009. godine u Vršcu, član Naučnog komiteta Balkan Congress of Radiology, održanom 2008. godine u Vrnjačkoj Banji, član Naučnog komiteta, Balkan Congress of Radiology, održanom 2007. godine na Zlatiboru, član Organizacionog komiteta State-of-the-art in Cardiology, Symposium, održanom u Niškoj Banji, član Naučnog komiteta Scientific Director European Conference on Myocardial and Pericardial Disease & Left Ventricular Dysfunction, održanom 2007. godine u Beogradu, sekretar European Society of Cardiology Extramural Education and Training Programs and Infectious Diseases of the Heart, održanom u Beogradu, sekretar 12th Congress of the Yugoslav Society of Cardiology, održanom 1997. godine u Herceg Novom, kao i sekretar i član Naučnog odbora International Symposium "Facts and Hopes in Pericardial Diseases", održanom 1996. godine u Beogradu.

c) Učešće na projektima

- 2010 – 2013 - EU Project, TEMPUS - Education and Culture: Governance and Management Reform in Higher Education in Serbia (GOMES) 158926 – TEMPUS-RS-TEMPUS-SMGR, Grant holder: Prof. Radmila Mariniković Nedučin, University of Novi Sad, Belgrade, Serbia
- 2004 – 2007 - EU Project, TEMPUS - Education and Culture, JEP 19046-2004: Restructuring of Postgraduate Studies and Training in Medicine in Serbia, Grant holder: Prof. Bernhard Maisch, Philips University, Marburg, Germany, Grant coordinator: Prof. Dr Petar M. Seferović, University of Belgrade, Serbia
- 2006 - 2007 - EU Project, TEMPUS SCEMIN C007B05 - Structuring and Complementing continuing Education in Medical Informatics, Grant holder: Prof. Vasillis Moustakis, Hania, Crete, Greece, Grant coordinator: Prof. Dr Srdjan S. Stanković, University of Belgrade, Serbia
- 2006 – 2010 - Projekat 145063 - Procena bolesnika sa bolestima perikarda primenom veštačke inteligencije – neuralne mreže, Ministarstvo za nauku i tehnološki razvoj, Republike Srbije, Beograd, Nosilac projekta: Prof. Dr Petar M. Seferović, Medicinski fakultet, Univerziteta u Beogradu
- 2005 - EU Project, TEMPUS - Individual Mobility Grant, SCG 3032-2004, Type 3 - Retraining period, study period, collaboration on a specific academic subject, dissemination of good practice, Host Institution: Faculty of Medicine, Philips University, Marburg, Germany
- 2002 – 2005 - EU Project, TEMPUS - Education and Culture, JEP 16072-2001, Information and Communication Technologies in Health Care, InCo-Health, Grant holder: Prof. Stelios Orphanoudakis, Heraklion, Greece, Grant co-ordinator: Prof. Dr Srdjan S. Stanković, University of Belgrade, Serbia
- 2001 – 2005 - Project 1453-2001, Dijagnostika i lečenje bolesti perikarda, Ministarstvo za nauku i tehnološki razvoj, Republike Srbije, Beograd, Nosilac projekta: Prof. Dr Petar M. Seferović, Medicinski fakultet, Univerziteta u Beogradu

d) Nagrade za naučni rad

Dr Maksimović je učestvovala kao prvi autor na mnogim kongresima sastancima u Jugoslaviji i inostranstvu i dva puta je nagrađena za originalni naučni rad na Annual Meeting and Postgraduate Course of the Cardiovascular and Interventional Radiological Society of Europe (1996, 1998). Na najznačajnijem kongresu radiologa Radiological Society of North America (RSNA), Čikago, Sjedinjene američke države, održanom 2003 godine za svoj rad "16-row multi slice computed tomography angiography in assessment of the left atrium and pulmonary veins" dobila je priznanje Certificate of Merit.

e) Članstvo u profesionalnim udruženjima

2010 -	International Society of Radiology – Virtual Congress Committee
2009 – 2013	Education Committee Board European Society of Radiology
2009-2013	Program Committee, Balkan Society of Radiology

2008	European Society of Gastroabdominal Radiology (ESGAR)
2008-2012	Podpredsednik Udruženja radiologa Srbije
2006-2008	Generalni sekretar Udruženja radiologa Srbije
2000 -	European Society of Radiology
1995 -	Srpsko lekarsko društvo
1995 - 2004	Udruženja radiologa Jugoslavije

D. OCENA O REZULTATIMA NAUČNOG I ISTRAŽIVAČKOG RADA

Dr. Ružica Maksimović je dala poseban doprinos u oblasti kardiovaskularne radiologije obrade slike u radiologiji. Tokom stručnog usavršavanja u Nemačkoj bavila se primenom kompjuterizovane tomografije i magnetne rezonance u evaluaciji kardiovaskularnog sistema iz čega su proistekli radovi publikovani u celini u međunarodnim časopisima i predstavljeni na najeminentnijim internacionalnim i domaćim kongresima.

Dr Ružica Maksimović ima bibliografiju od 309 rada, od kojih 17 u časopisima koji su indeksirani u Current Contents-u ili Science Citation Index-u, 19 radova u časopisima koji su uključeni u bazu podataka MEDLINE i 26 in extenso u časopisima koji nisu citirani u navedenim bazama podataka. Pored toga, koeditor je knjige o bolestima perikarda koja se na savremeni način bavi dijagnostikom i lečenjem bolesti perikarda a autor je ili koautor u pet poglavlja u udžbenicima, tri poglavlja u knjigama i u 16 poglavlja u monografijama.

Od izbora u zvanje docenta 2005. godine objavila je kao prvi autor u 5 radova u časopisima koji su indeksirani u Current Contents-u, ili Science Citation Index-u a kao drugi do treći autor ili saradnik u radu u jednom. Četiri rada u kojima je bila prvi autor su objavljeni u časopisima koji su uključeni u bazu podataka MEDLINE, jedan rad u kojem je bila drugi do treći autor, u pet radova je bila saradnik a u jednom nosilac rada. Dr Maksimović je od unapredjenja bila bila prvi autor u jednom radu koji je objavljen u časopisu koji nije indeksiran u gore navedenim bazama podataka, u dva je bila saradnik a u dva nosilac rada. Dr Maksimović je takodje bila prvi autor u tri rada koji su objavljeni u celini u zborniku sa međunarodnog skupa, u jednom radu je bila prvi autor u radu objavljeni u celini u zborniku sa nacionalnog skupa a u jednom je bila drugi do treći saradnik u radu. Takodje je bila bila prvi autor u dva rada koji su štampani u vidu izvoda u zborniku sa međunarodnog skupa.

Dr Maksimović je prema bazi SCOPUS citirana 85 puta.

Dr Maksimović je od unapredjenja u zvanje docenta, održala 24 predavanja na internacionalnim i domaćim kongresima. Takodje je predavač u Evropskoj školi radiologije (European School of Radiology) koja se održava u organizaciji Evropskog udruženja radiologa (European Society of Radiology) tokom 2009 godine (Cardiac imaging: MRI of myocardium and pericardium, ESOR ASKLEPIOS Course, Sochi, Russia) i 2010. godine (Cholanagiopancreatography using magnetic resonance imaging ESOR ASKLEPIOS Course, St. Petersburg, Russia).

U njenom naučno istraživačkom radu, zapaža nekoliko ključnih oblasti interesovanja. Jedna se odnosi na metode obrade slike dobijene kompjuterizovanom tomografijom. Metodu segmentacije digitalizovane slike, "snakes" model, je primenila u analizi slika dobijenih kompjuterizovanom tomografijom u pacijenata sa akutnom traumom glave. Primenom ove metode dobijene su dve nove varijable koje su bili statistički značajni prediktori preživljavanja u ovih pacijenata. Ovaj istraživački projekat je rezultirao u doktorskoj tezi koja je sa odličnim uspehom odbranjena 1998. godine kao i više publikacija objavljenih u međunarodnim časopisima i međunarodnim i nacionalnim kongresima.

Druga uža oblast interesovanja je kardiovaskularna radiologija o čemu svedoči i veliki broj radova. Jedan deo publikacija se odnosi na ispitivanje indikacija, kontraindikacija i dijagnostičke vrednosti endomiokardne biopsije u pacijenata sa primarnim bolestima srčanog mišića. U analizi dobijenih podataka koristila je meta analizu, što je bio jedan od prvih primera ove kompleksne statističke metode u kliničkoj praksi. Dr Maksimović je aktivno učestvovala u planiranju dizajna istraživanja, prikupljanju podataka, statističkoj obradi podataka kao i u pisanju radova. Drugi deo publikacija iz kardiovaskularne radiologije se odnosi na bolesti perikarda. Poseban akcenat je na novim dijagnostičkim metodama, magnetnoj rezonanci i kompjuterizovanoj tomografiji.

Njen projekat "Automatic Segmentation and 3D Reconstruction of Magnetic Resonance Images: Assessment of the Left Ventricular Mass in Patients with Essential Hypertension Treated with Enalapril and Eplerenone" je prihvaćen za realizaciju od strane Evropskog udruženja kardiologa (European Society of Cardiology) čime je postala stipendista ovog najuglednijeg udruženja kardiologa u Evropi. Cilj projekta je bio da se primenom magnetne rezonance procene parametri leve komore. Ovo je vrlo moderan i aktuelan pristup u lečenju i praćenju bolesnika sa kardiovaskularnim bolestima jer je magnetna rezonanca postala zlatni standard u proceni volumena i mase leve komore. Otuda je ovaj projekat važan ne samo sa istraživačkog već i sa kliničkog stanovišta i omogućava praćenje morfoloških i funkcionalnih karakteristika leve komore u pacijenata sa dilatacionom kardiomiopatijom. Takođe se bavi primenom najnovije generacije kompjuterizovane tomografije u ispitivanju kardiovaskularnog sistema a rad "16-row Multi Slice Computed Tomography Angiography in Assessment of the Left Atrium and Pulmonary Veins" je dobio priznanje Certificate of Merit na poslednjem sastanku Radiological Society of North America (RSNA), 2003.

U poslednjih pet godina Dr Maksimović je održala nekoliko predavanja po pozivu na uglednim inostranim i domaćim kongresima čija je tema bila primena diffusion-weighted imaging (DWI) i primene magnetne rezonance u pregleda bilijarnog stabla i pankreasnog kanala (magnetic resonance imaging colangiopancreatography - MRCP). DWI je nova tehnika pregleda magnetnom rezonancom (MR) koja je osetljiva za otkrivanje kretanja molekula vode čime omogućuje procenu funkcije organa na neinvazivni način. Do sada se ova tehnika koristila uglavnom za procenu ishemijske bolesti u centralnom nervnom sistemu ali se poslednjih nekoliko godina koristi i za diferencijalnu dijagnozu fokalnih lezija jetre. Dr Maksimović je pokazala da je DWI tehnika nova funkcionalna tehnika pregleda MR koja omogućuje ne samo otkrivanje već i tipizaciju lezija jetre. Na osnovu vrednosti ADC mape mogu se međusobno razlikovati primarni tumor jetre, prosta cista i hemangiomi. Takođe, bolesnici sa benignim promenama u jetri (proste ciste i hemangiomi) imaju značajno veću vrednosti ADC mape u odnosu na bolesnike sa malignim lezijama (primarni i sekundarni tumori jetre) što je od značaja u ranoj diferencijalnoj dijagnozi, pa samim tim i terapijskom pristupu i prognozi ovih bolesnika

MRCP je relativno nova metoda koja se koristi u proceni bolesnika sa oboljenjima bilijarnih puteva kao što je kalkuloza, benigne i maligne opstrukcije i zapaljenja pankreato-bilijarnog sistema. Iako se endoskopska retrogradna holangiopancreatografija (ERCP) koristila do sada kao dijagnostičko i terapijsko sredstvo za procenu stanja i lečenje bilijarnog trakta i pankreasa, pokazalo se da je ova metoda praćena značajnim procentom komplikacija, među kojima su najopasniji akutni pankreatitis i krvarenje. Stoga, uvođenje MRCP-a je imalo ogroman značaj, jer omogućava neinvazivni pregled pacijenata, pregled traje kraće, ne zahteva anesteziju, bolesnici se ne izlažu nepotrebnom jonizujućem zračenju, rezultati ne zavise od stručnosti operatera, a omogućena je i procena stanja ostalih sistema. Dr Maksimović takođe drži predavanje i radionicu iz oblasti primene MRCP-a u okviru internacionalne škole ASKLEPIOS, u organizaciji Evropskog udruženja radiologa (European Society of Radiology).

Takođe je recenzent za dva visoko rangirana časopisa iz oblasti radiologije:

- 2004 - European Radiology
- 2008 - European Journal of Radiology

Dr Maksimović je recenzent za Komisiju za akreditaciju i proveru kvaliteta Nacionalnog saveta za visokog obrazovanje, Republike Srbije.

E. OCENA REZULTATA U OBEZBEĐIVANJU NAUČNO-NASTAVNOG PODMLATKA

Mentorstva

Doktorske disertacije

1. Dr Dragoslav Jablanović: Vrednost digitalne radiografije u dijagnostici sakroiliitisa u seronegativnim artropatijama pre svega u ankilozirajućem spondilitisu sa procenom doze za pacijente. Medicinski fakultet, Beograd 2007.
2. Dr Predrag Ćirković: Evaluacija morfoloških i biohemijskih parametara koštanih tumora primenom magnetne rezonance i spektroskopije magnetnom rezonancom pre i nakon neoadjuvantne hemioterapije. Medicinski fakultet, Beograd 2010.
3. Dr Mirjan Nadrljanski: Magnetna rezonancija dojki u proceni odgovora tumora na neoadjuvantnu hemioterapiju. Medicinski fakultet, Beograd 2010.
4. Dr Bojan Banko: Dijagnostički značaj magnetne rezonance u proceni tumora larinksa. Medicinski fakultet, Kragujevac 2010.

Specijalističke akademske studije

1. Dr Dušan Radaković: Holangiopankreatografija primenom magnetne resonance u proceni bilijarnih puteva: korelacija sa hirurškim i patohistološkim nalazom. Medicinski fakultet, Beograd, 2009.

Dr Maksimović je bila član komisije za ocenu i odbranu 2 magistarske teze kao i mentor u 4 studentska rada.

F. OCENA O REZULTATIMA PEDAGOŠKOG RADA

Od izbora za asistenta za užu naučnu oblast Radiologija, 1996. godine Dr Maksimović učestvuje u izvođenju praktične osnovne nastave, sa fondom od 10 časova nedeljno, a od reizbora u zvanje asistenta učestvuje i u izvođenju dvosemestrane nastave za lekare na specijalizacije iz radiologije. Radu sa studentima pristupa odgovorno i profesionalno.

Osnovna nastava

U okviru **osnovne nastave iz predmeta Radiologija sa nuklearnom medicinom**, Dr Maksimović učestvuje u sledećim oblicima nastave: predavanja, testovi i kolokvijumi.

Osnovna nastava na engleskom jeziku

Dr Maksimović je rukovodilac nastave na engleskom jeziku od 2010. godine. Dr Maksimović učestvuje u sledećim oblicima osnovne nastave na engleskom jeziku: predavanja i vežbe.

Poslediplomska nastava

Dr Maksimović drži predavanja u okviru zdravstvene specijalizacije iz radiologije, fizikalne medicine i rehabilitacije kao i u okviru uže zdravstvene specijalizacije iz kardiologije i akademske specijalizacije iz radiologije.

G. OCENA O ANGAŽOVANJU U RAZVOJU NASTAVE I DRUGIH DELATNOSTI VISOKOŠKOLSKJE USTANOVE

Dr Maksimović je aktivan i konstruktivan član Katedre za radiologiju. Savesna je u izvođenju redovne nastave i u svakodnevnom radu sa studentima. Takodje učestvuje kao saradnik na dva projekta: jedan je iz oblasti kardiovaskularne radiologije na Medicinskom fakultetu a drugi iz oblasti reforme upravljanja univerzitetima u Srbiji u kojem učestvuje više zemalja Evropske Unije, dok je rukovodilac Univerzitet u Novom Sadu. Njeno anagažovanja na ovim projektima ukazuje na sposobnost aktivnog rada u kliničkim istraživanjima i timskom radu kao i povezivanju stručnjaka istih interesovanja iz različitih institucija. Dr Maksimović ima punu inicijativu u primeni novih metoda analize dobijenih podataka, planiranju, koordinaciji i izvođenju naučnih projekata. Takodje, ima iskustvo i sposobnost da promoviše dobre interpersonalne odnose naročito medju stručnjacima iz različitih oblasti, što je bitno za uspešno izvođenje naučno istraživačkog projekta.

Dr Ružica Maksimović se u toku svog petnaestogodišnjeg rada na Medicinskom fakultetu u Beogradu, formirala u zrelog pedagoga vodeći uspešno praktičnu nastavu iz radiologije redovnim studentima medicine. Osim toga komisija smatra je Dr Ružica Maksimović ostvarila značajna dostignuća iz oblasti radiologije.

Zaključak

Dr Ružica Maksimović ispunjava sve uslove predviđene Zakonom o visokom obrazovanju i Statutom Medicinskog fakulteta za izbor u zvanje docenta za užu naučnu oblast radiologija.

2. Dr Dragan Mašulović

A. OSNOVNI BIOGRAFSKI PODACI

Dr Dragan (Momčilo) Mašulović je rođen 14.03.1961.godine u Zemunu. Zaposlen je na Medicinskom fakultetu u Beogradu na radnom mestu docent i u Centru za radiologiju i magnetnu rezonancu KCS na radno mestu lekar specijalista radiologije.

B. STRUČNA BIOGRAFIJA, DIPLOME I ZVANJA

Osnovne studije

Medicinski fakultet u Beogradu dr Dragan Mašulović upisao je 1979.g i završio ga u roku 30.10.1984.g, sa prosečnom ocenom 9,43. Tokom studija, za odličan uspeh i postignute rezultate dobio je Pohvalnicu Medicinskog fakulteta.

Magisterijum

Magistarski rad iz oblasti Radiologije pod naslovom "Primena interventnih postupaka u zbrinjavanju striktura distalnog uretera" odbranio je 25.04.1995.godine na Medicinskom fakultetu u Beogradu, pred Komisijom u sastavu: Prof.dr Branislav Goldner (predsednik), Doc. dr Ljiljana Radošević-Jelić i Doc. dr Željko Marković (mentor).

Doktorat

Doktorsku tezu iz oblasti Radiologije pod nazivom "Metalni stentovi u lečenju striktura urinarnog trakta" odbranio je 05.06.2000.godine na Medicinskom fakultetu u Beogradu, pred Komisijom u sastavu: Prof.dr Jovan Hadži-Đokić (predsednik), Prof.dr Branislav Goldner, Prof.dr Ljiljana Radošević-Jelić, Prof. dr Dragan Milanović i Doc. dr Željko Marković (mentor).

Specijalizacija

Specijalistički ispit iz Radiologije položio je 09.10.1992. godine sa odličnim uspehom.

Dosadašnji izbori u nastavna i naučna zvanja:

U zvanje asistenta za predmet Radiologija izabran je 28.05.1996.godine, reizabran jula meseca 2000. i jula 2004. godine. U zvanje docenta izabran je 25.11.2005.godine.

C. NAUČNI I STRUČNI RAD

4. **Mašulović D**. Povrede jednjaka. I intersekcijski sastanak radiologa Srbije i Slovenije, Beograd 2010.

c) Organizovanje naučnih sastanaka i simpozijuma

Bio je sekretar i jedan od organizatora Prvog Jugoslovenskog Kongresa Radiologa sa međunarodnim učešćem, koji je 1994. godine održan u Vrnjačkoj Banji i član Kongresnog Odbora Drugog Jugoslovenskog kongresa radiologa sa međunarodnim učešćem. Bio je član Internacionalnog borda Drugog Internacionalnog Simpozijuma o urološkim stentovima i član dva predsedništva na pomenutom Kongresu, koji je od 22. do 24. 10. 1998. godine održan u Beogradu. Poslednje sedam godina nalazi se u svojstvu Predsednika Kongresnog Odbora Udruženja Radiologa Srbije i Crne Gore / Srbije. Bio je jedan od tri sekretara redakcije časopisa RAS (Radiološki Arhiv Srbije), kao jedinog radiološkog glasila na prostorima Jugoslavije. Prvi je urednik Biltena, zvaničnog glasila Udruženja radiologa Jugoslavije - Srbije i Crne Gore. Bio je gost urednik jednog broja časopisa Acta Chirurgica Iugoslavica /Medline/, posvećenog Radiologiji.

d) Rukovodjenje ili učešće na projektima; saradnja sa drugim naučnim institucijama; međunarodna saradnja

Bio je jedan je od učesnika projekta pod nazivom “Odnos volumena, mase i funkcije bubrega i njihov uticaj na progresiju bubrežne insuficijencije” (br. 1450, nosilac Doc. dr Višnja Ležajić u trajanju od 01.01.2002. do 30.12.2005) i projekta “Antioksidantna terapija u radiologiji”, 1998. godine, čiji je nosilac bio Prof. dr B. Goldner. Više puta boravio je u više Atinskih, Londonskih, Berlinskih i Pariskih centara u cilju edukacije. Od 20. 03. - 17. 04. 2006. godine boravio je u Centre Leon Berard u Lionu. Navedeni boravak u pomenutom centru predstavljao je stipendiju Vlade Francuske.

e) Nagrade za naučni rad

Na kongresima CIRSE (selektivnim kongresima interventne radiologije) njegovi radovi su u dva navrata bili uvršteni među 7 najboljih iz istočne Evrope. Za rad i postignute rezultate u toku 1997. godine dobio je diplomu Srpskog Lekarskog društva, a 2000. godine i zahvalnicu.

D. OCENA O REZULTATIMA NAUČNOG I ISTRAŽIVAČKOG RADA

Dr Dragan Mašulović je do sada objavio 269 radova – 64 u celini, 191 u obliku izvoda, 12 poglavlja i 2 knjige. Kandidat ima 7 radova objavljenih u časopisima indeksiranim u CC ili SCI (šest nakon izbora u zvanje docenta), 1 rad u kategoriji Letter, short note u časopisu indeksiranom u CC ili SCI (kao drugi autor),

1 rad u časopisima indeksiranim u SCI Expanded (kao drugi autor i nakon izbora u zvanje docenta), 25 u časopisima indeksiranim u MEDLINE-u (4 kao prvi autor-tri nakon izbora u zvanje docenta, 8 kao 2-3 - svi nakon izbora u zvanje docenta, 13 kao saradnik-11 nakon izbora u zvanje docenta), 23 rada u celini u časopisu koji nije indeksiran u navedenim bazama podataka (5 kao prvi autor, 8 kao 2-3 autor, a u ostalim kao saradnik), 7 radova u celini u zborniku nacionalnog skupa (6 kao jedini autor-svi nakon izbora u zvanje docenta i 1 kao 2-3 autor), 136 u vidu izvoda u zborniku međunarodnog skupa (6 kao jedini autor, 40 kao prvi autor, 48 kao 2-3 autor, a u preostalih 42 kao saradnik), 55 u vidu izvoda u zborniku nacionalnog skupa (17 kao prvi autor, 20 kao 2-3 autor, 18 kao saradnik). Ukupno, dr Dragan Mašulović je jedini autor u 12 radova, prvi autor u 66, 2-3 autor u 88 i saradnik u 89 radova. Posle izbora u zvanje docenta dr Dragan Mašulović ima 47 radova – 31 u celini i 16 u vidu izvoda. 6 radova je objavljeno u časopisima indeksiranim u CC ili SCI, 1 rad u časopisima indeksiranim u SCI Expanded, 22 rada u časopisu indeksiranom u MEDLINE-u i 2 rada u časopisu koji nije indeksiran u navedenim bazama podataka. Od 16 radova u vidu izvoda 9 je u izvodu zbornika međunarodnog skupa, a 5 u izvodu zbornika nacionalnog skupa. Kandidat ima 12 poglavlja (10 kao jedini autor, 1 kao prvi, a u jednom je 2-3 autor). Jedan je od dva autora prevoda američkog udžbenika za studente medicine – Osnovi radiologije.

Analizom objavljenih radova zapaža se da se kandidat bavi primenom interventno radioloških procedura, vaskularnih i nevaskularnih u oblasti urologije i radiologije hepatobilijarnog sistema, a u novije vreme i primenom novih digitalnih imidžinga u dijagnostici i terapiji. Predstavio je široki paletu primene kako nevaskularnih tako i vaskularnih metoda u tretmanu različitih oboljenja pomenutih sistema. Prikazane su kako generacijski starije tako i najnovije interventno radiološke procedure.

U svim publikacijama analiziraju se i prihvataju najnovi stavovi iz oblasti radiologije, uz primenu savremenih metoda, kako u dijagnostičko-terapijske, tako i u istraživačke svrhe. Evidentan je kontinuitet u interesovanju i proučavanju problema kojima se kandidat bavi kao i stalna povezanost sa stručnjacima sličnih interesovanja iz različitih institucija u zemlji i inostranstvu.

Stoga, na osnovu analize priloženog spiska radova sa tabelarnim prikazom može se zaključiti da dr Dragan Mašulović ispunjava predviđene kriterijume za izbor u zvanje docenta, kako po broju, tako i po kvalitetu publikovanih radova.

E. OCENA REZULTATA U OBEZBEĐIVANJU NAUČNO - NASTAVNOG PODMLATKA

Mentorstva

Doktorati

Milan Stojanović : „Učestalost i karakteristike slučajno otkrivenih tumora bubrega i mokraćne bešike kod stanovništva severoistočne Crne Gore“. (mentor) – odbranjena 23.12.2008.g

Komisije

Za ocenu i odbranu magistarske teze

Tanja Nastasić : „Mogućnosti kompjuterizovane tomografske cistoskopije u detekciji tumora mokraćne bešike“. (mentor prof. Dr Tatjana Stošić - Opinčal, komentor Prof.

Dr Vinka Vukotić – Maletić), odbranjena 04.06.2010.g

Za izbore u zvanja

Asistent (radiologija) : 2009 i 2010.g

F. OCENA O REZULTATIMA PEDAGOŠKOG RADA

Osnovna nastava

U okviru predmeta Radiologija dr Dragan Mašulović učestvuje u sledećim oblicima nastave:

Predavanja (radiologija digestivnog trakta, radiologija urinarnog trakta, interventna radiologija i kontrastna sredstva i kontrastne metode u radiologiji).

Seminari (radiologija digestivnog trakta, urologija i interventna radiologija).

Vežbe – vežbe izvodi u okviru odeljenja i u elektronskoj učionici.

Kolokvijum I iz radiologije – učestvuje u pripremi i realizaciji kolokvijuma I koji se sastoji od testa od 20 pitanja.

Kolokvijum II iz radiologije – ispitivač je kolokvijuma II iz radiologije koji se sastoji od interpretacije pet filmova iz različitih oblasti radiologije.

Završni ispit iz predmeta Radiologija sa nuklearnom medicinom – u svojstvu nastavnika pregleda i ocenjuje završni test.

Kvalifikacioni test za studente IV i V godine i apsolute – učestvuje u pripremi i ocenjivanju kvalifikacionog testa za studente IV i V godine i apsolute.

Usmeni ispit – za studente IV i V godine i apsolute

Izborna nastava – CT dijagnostika u radiologiji.

Predispitne vežbe – učestvuje u pripremi i izvođenju predispitnih vežbi iz različitih oblasti radiologije.

Konsultacije – jednom nedeljno u trajanju od 1,5 h obavlja konsultacije sa studentima.

Poslediplomska nastava

U okviru specijalističke nastave iz Radiologije učestvuje sa **19 časova teorijske nastave**. Drži sledeća predavanja: Indikacije za CT pregled, primena kontrastnih sredstava u Radiologiji, UZ u bolestima digestivnog sistema, CT i MR u bolestima digestivnog sistema-hepatobilijarni trakt, dijagnostika i interventne procedure oboljenja jetre, kongenitalne anomalije urotrakta, Zapaljenska oboljenja kanalnog sistema bubrega, Metode transkateterske embolizacije, perkutane drenaze kolekcija u peritonealnom prostoru.

Kolokvijumi u okviru specijalizacije – ispituje dva kolokvijuma u okviru specijalizacije: radiologija urinarnog trakta, interventna radiologija.

Specijalistička komisija – uz Prof. Dr Ivanu Golubičić i prof. Dr Đoršija Šaranovića stalni je član jedne specijalističke komisije.

Mentorstvo – mentor je za specijalističku nastavu iz uroradiologije i interventne radiologije.

Akadska specijalizacija iz Radiologije – jedan je od dva rukovodioca izbornog predmeta

Interventna radiologija.

Akadska specijalizacija iz Radiologije – učestvuje u izvođenju nastave obaveznog predmeta Dijagnostički vizualizacioni sistemi.

Druge specijalizacije – u okviru specijalističke nastave iz Urologije i Gastroenterologije učestvuje sa po 2 časa.

Nastava na engleskom jeziku

Do pre 2-3 godine učestvovao je i u izvođenju nastave na engleskom jeziku.

G. OCENA O ANGAŽOVANJU U RAZVOJU NASTAVE I DRUGIH DELATNOSTI VISOKOŠKOLSKOJE USTANOVE

Dr Dragan Mašulović je uključen u sve oblike stručnih aktivnosti i kao specijalista radiolog daje svoj puni doprinos u rešavanju problema u različitim segmentima Radiologije, a naročito u oblasti interventne radiologije hepatobilijarnog i urinarnog trakta. Značajan stručni doprinos kandidata ogleda se u uvođenju i uspostavljanju većeg broja interventnih procedura, kako vaskularnih tako i nevaskularnih, tako da su njegova iskustva u primeni ovih procedura ogromna i dragocena a serije ravne onim u velikim svetskim centrima, što ga nesumnjivo čini autoritetom u ovoj oblasti Radiologije. U novije vreme sa velikim uspehom bavi se i primenom novih digitalnih imidžinga u dijagnostici i terapiji.

Dr Dragan Mašulović je do sada pokazao veliku aktivnost u svim oblicima rada katedre za Radiologiju. Kandidat je u dva mandata bio sekretar katedre za osnovnu nastavu iz Radiologije a sada je zamenik šefa katedre za osnovnu nastavu iz Radiologije. U toku svog rada na Medicinskom fakultetu na Katedri za Radiologiju Dr Dragan Mašulović je pokazao zavidan uspeh u podučavanju novih generacija studenata. Analizirajući njegovu angažovanost u radu Katedre za Radiologiju, posebno kao Sekretara Katedre u osnovnoj nastavi, smatramo da daje značajan doprinos u organizaciji i poboljšanju kvaliteta nastave na ovom predmetu.

Dosadašnji stručni, pedagoški i naučno istraživački rad Dr Dragana Mašulovića ukazuje da se on izgradio u vrsnog stručnjaka i naučnog radnika u oblasti Radiologije, naročito Interventne radiologije i nesumnjivo je da će nastaviti da razvija svoje kvalitete doprinosi još boljoj edukaciji studenta i specijalizanata.

Zaključak
