

DIPLOMA SUPPLEMENT

diploma number ##

1. Information identifying the holder of the diploma

- 1.1 Name:
- 1.2 Surname:
- 1.3 Date of birth (dd.mm.yyyy.):
- 1.4 Student identification number:
Personal identification number:

2. Information identifying the qualification

- 2.1 Academic degree obtained: *Specialist of Pharmacy*
- 2.2 Scientific/artistic/vocational field(s): *pharmaceutical sciences - Release of medicinal products on the market*
- 2.3 Name and status of higher education institution awarding the diploma:
University of Belgrade, state independent higher education institution
- 2.4 Name and status of higher education institution organizing the studies (if different from 2.3):
University of Belgrade – Faculty of Pharmacy, state higher education institution
- 2.5 Language(s) of instruction: *English language*

3. Information on the type and the level of study

- 3.1 Type and level of study: *specialist academic studies, second cycle*
- 3.2 Official length of program: *2 years (120 ECTS)*
- 3.3 Enrollment requirement(s):
General requirements laid down by the Law of the University of Belgrade and special requests defined by the general act of the Faculty.

4. Information on the content and results obtained

- 4.1 Mode of study: *studies at the Institution*
- 4.2 Name of the study program:
Specialist academic studies - Release of medicinal products on the market

Objectives of the study program:

- *Education of competent professionals in a very specific and highly responsible jobs in the pharmaceutical industry in the areas of release of the medicinal product on the market.*
- *Improve existing and provide additional expertise in the field of pharmaceutical regulations necessary for the release of the medicinal product on the market.*
- *Acquiring of the professional knowledge of formulation development, manufacturing and quality control of medicinal product needed for safe release on the market.*
- *Acquiring knowledge about the production and control of sterile, biological and biotechnological medicinal product and their release on the market.*

- *Develop skills for critical analysis of results and resolving of specific cases in practice which may affect the decision to release of the medicinal product on the market.*
- *Adopting the methodology and the specific skills required to successfully solve the concrete, often very complex, situation regarding the release of the medicinal product on the market.*
- *Training for independent and team work, critical thinking and independent decision-making.*
- *Training the skills of acceptance of continuing education and career development in a given area of the pharmaceutical profession.*

4.3 Programme details and the grades obtained:

No.	Code	Subjects Name	Status	ECTS	Total number of classes			Year of st. prog.	Grade	Teacher
					Lect.	Prat.	Oth.			
1.		Pharmaceutical legislation and professional duties of a QP	O	10	30	15	45	1.		Marinković D. Valentina
2.		Quality management system	O	12	30	30	45	1.		Marinković D. Valentina
3.		Pharmaceutical-Medicinal chemistry	O	8	15	30	45	1.		Agbaba D. Danica
4.		Active pharmaceutical ingredients and excipients	O	8	15	15	45	1.		Agbaba D. Danica
5.		Elective block 1*	E	12	45	30	60	1.		
6.		Pharmaceutical development	O	10	15	30	60	1.		Primorac M. Marija
7.		Manufacturing of drugs	O	20	45	30	60	2.		Parojčić J. Jelena
8.		Elective block 2*	E	12	45	30	60	2.		
9.		Pharmaceutical microbiology	O	8	15	15	45	2.		Milenković T. Marina
10.		Pharmaceutical analysis	O	10	30	30	60	2.		Zečević L. Mira
11.		Elective block 3*	E	12	45	30	60	2.		
		Project	O	8				2.		
		TOTAL		120	4725	4275	9000			

The Title of the Specialist Thesis:
Examining committee:

4.4 Grading scale:

Grades	Classification	Number of points	
		from	to
10	excellent	91	100
9	exceptionally good	81	90
8	very good	71	80
7	good	61	70
6	sufficient	51	60

5	fail	0	50
---	------	---	----

4.5 Grade point average and overall classification of the qualification:

5. Information on the function of the degree

5.1 Access to further study:

The owner of the diploma has the right to enroll in doctoral academic studies according to the requirements provided by corresponding rule books of the University of Belgrade and the Faculty of Pharmacy on the enrollment of doctoral academic studies.

5.2 Professional status:

specialist in the field of pharmacy - Release of medicinal products on the market

In the pharmaceutical industry, students that have successfully complete this study program, are able to:

- independently and in a team-work competently deal with complex issues related to quality, efficiency and safety of the medicinal product and its release on the market,*
- critically observe and analyze specific issues in the field of medicine quality and make independent decisions,*
- identify new professional problems and, based on the acquired knowledge, independently access and resolve them,*
- establish various forms of professional cooperation and communication, both at home and abroad, and thus contribute to the ongoing improvement of the pharmaceutical profession,*
- possess a professional and ethical responsibility of specialist in the field of release of the medicinal product on the market,*
- improve their knowledge and follow the development of the pharmaceutical profession during the lifetime.*
