Prof. Vujović je svoja interesovanja posvetila ispitivanju osovine hipotalamus-hipofiza -gonade, sa posebnim interesovanjem za ginekološku endokrinologiju. Veoma sistematična u radu deo svoje aktivnosti posvetila je i izučavanju endokrinološkog statusa u osoba sa poremećajem polne sfere, posebno polnog identiteta, kao deo Beogradskog tima za polni identitet, što je bila nova oblast istraživanja i rada na terenu stare Jugoslavije, ali i danas predstavlja deo timskog rada u ovoj oblasti. Deo istraživanja (magistarski rad i doktorska disertacija) posvećeni su predmenstruacionom sindromu, o kome je napisala i monografiju. Oblast policističnih ovarijuma i probleme etiologije hirzutizma obradila je u monografiji «Hirzutizam» koja je nagrađena kao knjiga godine u Kliničkom centru Srbije. Od 2002. se intenzivnije bavi ispitivanjima menopauze (nagrađena je i monografija »Menopauza«), a poslednjih godina se bavi ispitivanjem smanjenja androgena na opšte stanje muškaraca tokom starenja. Objavljeni radovi ukazuju na doslednost u procesu istraživanja, a u nekima su dati potpuno novi termini, etiološki faktori i time predstavljaju stručan i naučni doprinos.

Dr Vujović je do sada kao autor i koautor objavila 414 rad od kojih je 69 rad u celini a 345 radovi u vidu izvoda koji su navedeni prema sledećim kategorijama:

Pre izbora u zvanje vanrednog profesora objavila je 339 rad, a posle izbora 75 radova.

Angažovana je na kliničkim istraživanjima. Unapredila je timski rad na odeljenju u kome je bila načelnik, a sada je Sef Kabineta. Aktivno je angažovana u međunarodnoj saradnji u okviru koje je injicirala i ostvarila saradnju sa Prof. Johnom Stevensonom (London), Prof. Johnom Studdom (London) koji su postali i visiting profesori na Medicinskom fakultetu u Beogradu. U toku je studija sa Prof. Farook Al Azzawijem (London) o genetici prevremene insuficijencije ovarijuma. U okviru Evropskog borda za menopauzu ostvaruje jedan vid međunarodne saradnje. Izabrana je u Bord International Menopause Society. Recenzent je u 10 svetskih časopisa. Aktivno znanje engleskog i nemačkog jezika.

### **H OCENA REZULTATA U OBEZBEĐIVANJU NAUČNO-NASTAVNOG PODMLATKA**
