Management (FDIBA)

## WP 5.1 - Quality control and monitoring

Peer review of the Curriculum  
of University of Belgrade for Module  
“Risk assessment and management in new  
products development”  
Module Code IPROD BU 04

2014

This project has been funded with support from the European Commission. This publication reflects the views only of the author, and the Commission cannot be held responsible for any use which may be made of the information contained therein.

## General

Curriculum of University of Belgrade for Module “Risk assessment and management in new products development” with Module Code IPROD BU 04 has a recommended enrollment level VII (Master academic studies) and total duration of 10 hours. The purpose of this curriculum is to introduce the attendees with the basics of risk management and relevant technical legislation.

## Comments

On this curriculum we have following comments:

1. Regarding a basic level of this module, our opinion is that all necessary units in field of Intellectual property protection, particularly patents and patent documents, are present.
2. The ratio between theoretical and practical lectures is well balanced.
3. Practical lectures are well coordinated with theoretical lectures.
4. Case studies and examples are appropriate.
5. The total duration of the course (10 hours) is appropriate, regarding a basic level of a course.
6. Portfolio of evaluation, performance criteria and evaluation forms are well defined.
