Предлог за проректора – библиографија кандидата

Др Бранимир Јованчићевић, редовни професор
Хемијског факултета, Универзитета у Београду

Spisak radova i preglednih radova

Pregledni rad u časopisima međunarodnog značaja

1. Jovančičević B., Vrvic M., Schwarzbauer J., Wehner H., Scheeder G. and Vitorović D. (2007) Organic-geochemical differentiation of petroleum-type pollutants and study of their fate in Danube alluvial sediments and corresponding waters (Pančevo Oil Refinery, Serbia). *Water Air and Soil Pollution* (Springer) **183**, 225-238.

Pregledni rad u časopisima nacionalnog značaja

1. Jovančičević B., Polić P. and Vitorović D. (1998) Organic geochemical investigation of crude oils. The southeastern part of the Pannonian Basin in Yugoslavia. *J. Serb. Chem. Soc.* **63**, 397-418
2. Jovančičević B. Polić P., Nedeljković J. and Vitorović D. (1998) GC-MS in organic matter investigation of Yugoslav sediments. *Chem. Industry* **52**, 504-514.
3. Beškoski V., Gojgić-Cvijović G., Milić J., Ilić M., Miletić S., Jovančičević B. i Vrvic M.M. (2012) Bioremedijacija zemljišta kontaminiranog naftom i naftnim derivatima: mikroorganizmi, putanje razgradnje, tehnologije. *Hemijska industrija* **66**, 275-289.

Radovi u vrhunskim međunarodnim časopisima (M21a)

1. Žujović Z., Srejić R., Vučelić D., Vitorović D. and Jovančičević B. (1995) Structural analysis of Aleksinac oil shale kerogen using high resolution solid state ^{13}C n.m.r. spectroscopy. *Fuel* **74**, 1903-1909.
2. Žujović Z., Srejić R., Vučelić D., Jovančičević B. and Vitorović D. (1998) Influence of depyritization on NMR relaxation parameters of Aleksinac oil shale kerogen. *Fuel* **77**, 1001-1003.
3. Antić M., Jovančičević B., Ilić M., Vrvic M.M. and Schwarzbauer J. (2006) Petroleum pollutant degradation by surface water microorganisms, *Environ Sci & Pollut. Res.* **13**, 320-327.
4. Stojanović K., Jovančičević B., Šajnović A., Sabo T., Vitorović D., Schwarzbauer J. and Golovko A. (2009) Pyrolysis and Pt(IV)- and Ru(III)-ion catalyzed pyrolysis of asphaltenes in organic geochemical investigation of a biodegraded crude oil (Gaj, Serbia). *Fuel* **88**, 287-296.
5. Radovanović A., Radovanović B. and Jovančičević B. (2009) Free radical scavenging and antibacterial activities of southern Serbian red wines. *Food Chemistry* **117**, 326-331.

6. Musbah Abduljalil M. Faraj, Šolević Knudsen T., Nytoft H.P. and Jovančičević B. (2016) Organic geochemistry of crude oils from the Intisar oil field (East Sirte Basin, Libya), *Journal of Petroleum Science and Engineering* 147, 605-616.

Radovi u vodećim međunarodnim časopisima (M21)

1. Šaban M., Jovančičević S.B., Saračević S., Hollerbach A. and Vitorović D. (1988) Correlative geochemical study of crude oils from southeastern parts of the Pannonian Basin. *Org. Geochem.* 13, 325-333.
2. Šaban M., Jovančičević S.B., Glumičić T. and Saračević S. (1990) Organic geochemical study of the "W" oil-gas field in the Yugoslav part of the Pannonian Basin. *Org. Geochem.* 16, 477-488.
3. Šaban M., Jovančičević S.B., Glumičić T. and Dogović N. (1990) Oil-oil correlation based on gas chromatographic-mass spectrometric analysis of polycyclic biomarkers. *Rapid Communications in Mass Spectrometry* 4, 505-509.
4. Jovančičević B., Vitorović D., Šaban M. and Wehner H. (1992) Evaluation of the effects of native minerals on the organic matter of Aleksinac oil shale based on the composition of free and bound bitumens. *Org. Geochem. (IF = 2,828)* 18, 511-519.
5. Vučelić D., Marković V., Vučelić V., Spiridonović D., Jovančičević B. and Vitorović D. (1992) Investigation of catalytic effects of indigenous minerals in the pyrolysis of Aleksinac oil shale organic matter. *Org. Geochem.* 19, 445-453.
6. Jovančičević B., Vučelić D., Šaban M., Wehner H. and Vitorović D. (1993) Investigation of the catalytic effects of indigenous minerals in the pyrolysis of Aleksinac oil shale substrates: steranes, triterpanes and triaromatic steroids in the pyrolysates. *Org. Geochem.* 20, 69-76.
7. Stojanović K., Jovančičević B., Pevneva G.S., Golovko J.A., Golovko A.K. and Pfenndt P. (2001) Maturity assessment of oils from the Sakhalin oil fields in Russia: phenanthrene content as a tool. *Org. Geochem.* 32, 721-731.
8. Jovanović T., Koruga Dj., Jovančičević B. and Simić-Krstić J. (2003) Modifications of fullerene extractions and chromatography with different solvents. *Fullerenes, Nanotubes, and Carbon Nanostructures* 11, 383-394.
9. Jovančičević B., Antić M., Šolević T., Vrvic M., Kronimus A. and Schwarzbauer J. (2005) Investigation of interactions between surface water and petroleum type pollutant, *ESPR – Environ Sci & Pollut Res.* 12, 205-212.
10. Dević G., Pfenndt P., Jovančičević B. and Popović Z. (2006) Pyrite formation in organic-rich clay, calcite and coal-forming environments, *Acta Geologica Sinica* 80, 574-588.
11. Stojanović K., Jovančičević B., Vitorović D., Pevneva G., Golovko J., Golovko A. (2007) Hierarchy of maturation parameters in oil-source rock correlations. Case study: Drmno depression, Southeastern Pannonian Basin, Serbia and Montenegro. *Journal of Petroleum Science and Engineering* 55, 237-251.
12. Životić D., Wehner H., Cvetković O., Jovančičević B., Gržetić I., Scheeder G., Vidal A., Šajnović A., Ercegovac M. and Simić V. (2008) Petrological, organic geochemical and geochemical characteristics of coal from the Soko mine, Serbia. *International Journal of Coal Geology* 73, 285-306.
13. Šolević T., Stojanović K., Bojesen-Koefoed J., Nytoft H.P., Jovančičević B. and Vitorović D. (2008) Origin of oils in the Velebit oil-gas field, SE Pannonian Basin, Serbia - source rocks characterization based on biological marker distributions. *Organic Geochemistry* 39, 118-134.
