

The 22nd International Conference
on Finite or Infinite Dimensional
Complex Analysis and Applications

August 8–August 11, 2014

Dongguk University

Gyeongju, Republic of Korea

**The 22nd International Conference
on Finite or Infinite Dimensional
Complex Analysis and Applications**

<http://22.icfidcaa.org>

August 8–11, 2014

Dongguk University

Gyeongju, Republic of Korea

Organized by

- Dongguk University (Gyeongju Campus)
- Youngnam Mathematical Society
- BK21PLUS Center for Math Research and Education at PNU
- Gyeongsang National University and The RINS

Supported by

- KOFST (The Korean Federation of Science
and Technology Societies)

August 2, 2014

7. [16:20-16:40] Sebahattin İkikardes and Recep Sahin, *On the extended Hecke groups*
8. [16:45-17:05] Dmitrii Karp, *Distributional G-function and representations of generalized hypergeometric functions*

- Dinner (18:00–19:00) The same Restaurant

August 9

Morning Session (9:30–12:00)

The Big Convention Hall; underground 1st floor of MAB

- Welcome Address, President of Dongguk University
(emcee: Jaewon Lee)
- Three Plenary Talks
 - ★ Chair: Kwang Ho Shon
 - 1. [9:45–10:25] Hidetaka Hamada, *Extreme points and support points associated with univalent subordination chains in \mathbb{C}^n*
 - ★ Chair: Toshiyuki Sugawa
 - 2. [10:30–11:10] Vesna Manojlović, *Bilipschicity of quasiconformal harmonic mappings*
 - ★ Chair: Young Joo Lee
 - 3. [11:15–11:55] Hiroaki Aikawa, *Extended Harnack inequalities with exceptional sets and its applications*

Lunch and Rest (12:00–13:20)

Lunch (12:00–13:00) The same restaurant
