To whom it may concern:

As a co-organizer (jointly with by Professor Daniel Faraco Hurtado) of the International Conference "Analytic Functions and Quasiconformal Mappings" held at Universidad Autónoma de Madrid on May 30, 2014,

I hereby certify that Professor Vesna Manojlovic from the University of Belgrade and the Mathematical Institute of the Serbian Academy of Arts and Sciences has delivered an invited 30-minute talk titled

"On bilipischicity of quasiconformal harmonic mappings",

as one of the five main speakers at this meeting (who came from four different countries). About thirty researchers attended the conference. More information can be found at the following web site:

To whom it may concern:

This letter is to certify that Professor Vesna Manojlovic from the University of Belgrade and the Mathematical Institute of the Serbian Academy of Arts and Sciences has visited our Department of Mathematics at Universidad Autónoma de Madrid, Spain from May 26 to June 01, 2014.

During this visit, Professor Manojlovic and I (as well as other colleagues) have maintained various mathematical discussions on topics of interest for current research in Complex Analysis.

Sincerely yours,

Dragan Vukotić
