Dear friends,

The European Union has launched the design phase of the New European Bauhaus initiative, announced by President von der Leyen in her 2020 State of the Union [address](#). The New European Bauhaus is an environmental, economic and cultural project, aiming to combine design, sustainability, accessibility, affordability and investment in order to help deliver the European Green Deal. The core values of the New European Bauhaus are thus sustainability, aesthetics and inclusiveness. The goal of the design phase (https://europa.eu/new-european-bauhaus/co-design/co-designing-new-european-bauhaus_en) is to use a co-creation process to shape the concept by exploring ideas, identifying the most urgent needs and challenges, and to connect interested parties.

Your work has been selected by the EU Mies Award network of experts and if you consider that it follows the values of the New European Bauhaus, we would like to encourage you to submit it as a contribution that will become a shared conversation to an important span of people.

This is the link to submit your work: <https://collector.sensemaker-suite.com/?projectID=97b9d76e-c943-4489-bee5-3e15b62cf4a9#Collector>.

Looking forward to your contributions to a better Europe,

Kind regards,

Ivan Blasi
